

LU HOU YANG

SOFTWARE DEVELOPER

(60) 10 258 0630 — luhouyang@gmail.com

<https://www.luhouyang.com> — Kota Kinabalu, 88450, Sabah, Malaysia

Seeking internship for AI, ML, IT, computer science related roles. Computer Science undergraduate at Universiti Teknologi PETRONAS (UTP). Core competencies include AI/ML skills, web development and app development. Have conducted technical workshops on TensorFlow, Flutter, Firebase, and GitHub, and I serve as the Mobile Development Lead in the UTP Google Developer Student Clubs.

Overseas Research Internship at Niigata University of International and Information Studies (NUIS), Japan

12 May 2025 – 12 December 2025 (28 weeks). Tasks include Mixed Reality (MR) development for Microsoft HoloLens 2 using Unity 3D. Conduct experiments in NUIS, Japan and UTP, Malaysia involving 300+ students. Data analysis and AI modelling with collected multimodal data. Co-author a research paper to publish our findings.

Education

Bachelor of Computer Science (Hons)

- Universiti Teknologi PETRONAS, Seri Iskandar, Perak
- September 2023 – Present
- **CGPA – 3.90**
- Dean's List - Sept 2023, Jan 2024, May 2024, Sept 2024

Matriculation Science Physical

- Kolej Matrikulasi Labuan
- July 2022 – May 2023

Activities

ML Workshop for Form 3 Students (28 September 2024)

- Main speaker for the workshop on fundamentals of machine learning. Introduce the field of ML to students. Kickstart their learning journey.

September 2024 O'week Committee (25 August 2024 – 31 August 2024)

- Organizing committee of orientation week to welcome new intakes.

2024 E3S2 Hackathon (5 July 2024 – 7 July 2024)

- Achieved 1st place and won a prize money of RM1500 together with team of tech enthusiast.

TensorFlow Workshop (26 June 2024)

- Teaching about Computer Vision and how to build an OCR model using CNN architecture.

Flutter Firebase 3 Day Workshop (31 May 2024 – 2 June 2024)

- Head of Trainer. Prepared workshop modules and delivered the 1st and 3rd day of workshop.

Campus Venture (CAVE) 2024 (15 May 2024)

- Head of Public Relations. Liaised with performers, VIPs, 160 school visitors and captions for social media promotions. Lead a team of 4 members.

Certification

- Customizing your model with TensorFlow 2 – Imperial London College - [Cert](#)
- Google Data Analytics Professional Certificate – Google - [Badge](#)
- Introduction to Large Language Models – Google - [Cert](#)
- Git and GitHub Essentials – IBM - [Badge](#)
- React Basics – Meta - [Cert](#)
- Introduction to Front End Development – Meta - [Cert](#)
- Introduction to Microsoft Azure Cloud Services – Microsoft - [Cert](#)
- AWS Cloud Foundations - [Badge](#)

Skills

- Languages: Chinese (native), English, Malay.
- Programming Languages & Frameworks: Proficient in Java, Python, C++, SQL, and experienced with frameworks such as Flutter, Angular, and React. Can use Google Cloud Platform for various development and deployment tasks. Use version control system like GitHub. Good understanding of Object Oriented Programming concepts and applications.
- Leadership and Strategic planning.
- Time management.

Cocurricular Activities

Google Developer Student Clubs GDSC-UTP

- Mobile Development Lead.
- Create workshop materials for app development (Flutter, Firebase), AI/ML (TensorFlow), VCS (Git, GitHub) and deliver workshops.
- Created GDSC-UTP Google Classroom. Space to share workshop materials to all students. With (40 students, 3 teachers). Google classroom code: [tlab4o7](#)

Syntech Club (Science and Technology)

- Technical department.
- Create workshop materials for AI/ML (Scikit Learn) and deliver workshops.

Petra (Pemuzik Tradisional)

- Play piano during O'week Jan 2024, CAVE 2024, Civil Engineering Dean's List Award.
